

Resident Dining Solution - System Requirements

Operating System	Microsoft® Windows® 7* Microsoft® Windows® 8 Microsoft® Windows® 10 Apple® OS X 10.9 or later
Browser	Google Chrome® Version: 70+ (Recommended for best user experience) Internet Explorer® 11 Mozilla Firefox® Version: 65+ Safari® Version: 7+

***Note:** Beginning January 14, 2020, Microsoft will no longer support or provide security updates for Windows® 7. The RDS application will continue to function on Windows® 7, however, users may be subject to security risks outside of MonarqRC's control. It is recommended that users upgrade to the latest operating system in order to avoid security vulnerabilities and heightened risks.

Regardless of the computer or mobile operating system, most recent versions of Google Chrome®, Mozilla Firefox® or Safari® will work with RDS.

For the best user experience, Google Chrome® is the recommended and preferred browser. Visit www.google.com/chrome to download. Follow the on-screen installation instructions.

To find your current Chrome browser version number, open Chrome on your computer. Click on the More icon in the upper right corner of the screen. Click on Help and then About Google Chrome.

Please contact MonarqRC before purchasing or upgrading your operating system to ensure you have the current minimum system requirements.
